Instructions for new customers:

- When registering for the first time, your ID card must be presented to check against personal data and the privacy policy must be filled out.
- We need to know the current status of all adults living in the household regarding income and reference to other services, without it being explicitly requested.
- We kindly request a contribution of € 2.00 per adult (18 years and older) and € 0.50 per child. We ask that you please provide written evidence of children's dates of birth (birth certificate/notification). **It is also possible to set up a credit account at the till.**
- Food may be collected a maximum of 2 times per week, but not on consecutive days. As the food is close to the expiry date and/or no longer entirely fresh it should be consumed immediately. Please observe the opening hours which we have set out. We have different opening hours for different customer groups so that the flow of customers is distributed better and, for example, disabled people do not have to wait so long.
- All customers must collect food themselves. If they are prevented from doing so, we need power of attorney which you can get from the till staff. This is only valid for one shop.

- If, due to prolonged illness, you are unable to shop yourself, the power of attorney can be provided for a limited period of time.
- As a fundamental rule, there is no legal right to receive food from Lingener Tafel e. V.
- The food which is given out has usually passed its expiry date. We therefore kindly request that you check the appearance and smell of the food very carefully.
- Please leave food which you do not want or which is too much in the blue basket and do not dispose of it on our property or in the natural environment.
- Please make sure that you bring suitable transportation containers with you – also for frozen goods.

Yours, Lingener Tafel e.V.
